PROFESSIONAL SUMMARY

B.Tech Information Technology graduate with hands-on project experience in QA Automation, Java, Selenium WebDriver, TestNG, Maven, SQL and Git/GitHub. Experienced in web automation using Page Object Model, Page Factory, Data-Driven Testing, Assertions, XPath, CSS Selectors and parallel execution. Contributed to a team-based e-commerce Selenium automation project and independently developed TEST-AutoMATES, a workflow automation project. Familiar with SDLC, STLC, manual testing, test case design, defect lifecycle, Agile/Scrum and Jira, with exposure to GitHub Actions CI/CD and ExtentReports. Seeking an entry-level QA Automation / Software Testing / Test Engineer role.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, SQL, HTML, CSS

Test Automation: Selenium WebDriver, TestNG, JUnit, Page Object Model, Page Factory, Data-Driven Testing, Cross-Browser Testing

Testing: Manual Testing, Functional Testing, Smoke Testing, Sanity Testing, Regression Testing, Test Case Design, Test Execution, Bug Lifecycle, SDLC, STLC

Frameworks: Maven, GitHub Actions, ExtentReports, Apache POI, TestNG DataProvider, TestNG Assertions

Tools: Git, GitHub, Jira, Eclipse, VS Code

Web Technologies: XPath, CSS Selectors

Methodologies: Agile, Scrum

PROJECTS

Selenium Automation Framework – E-Commerce End-to-End Testing

Team Project | 2026

Technologies: Java, Selenium WebDriver, TestNG, Maven, POM, Page Factory, Apache POI, ExtentReports, GitHub Actions

- Contributed to a team-based Selenium automation framework for SauceDemo covering critical e-commerce workflows including login, product browsing, cart management and checkout.
- Worked on Selenium WebDriver automation using Java and TestNG for assigned test scenarios and participated in test execution, debugging and failure analysis.
- Used Page Object Model and Page Factory to organize page elements and actions for reusable and maintainable automation code.
- Worked with ThreadLocal WebDriver for parallel execution, allowing independent browser sessions during concurrent test execution.
- Worked with TestNG DataProvider and Apache POI for data-driven testing and separation of test data from automation logic.
- Worked with ExtentReports and GitHub Actions for automated test execution and test reporting in a CI/CD environment.

TEST-AutoMATES – Workflow Automation and Smart Task Execution

Individual Project | 2025

Technologies: Java, Maven, TestNG, Git, GitHub, Jira, Agile/Scrum

- Independently developed a workflow automation project to automate repetitive activities including user login, form submission, data validation and task status updates.
- Structured the project into src/main, src/test and docs to separate automation logic, test scripts and project documentation.
- Developed TestNG test cases and assertions to validate actual results against expected outcomes with descriptive failure messages.
- Used Maven for build and dependency management and Git/GitHub for source-code version control.
- Tracked development tasks using GitHub Issues and followed an Agile/Scrum-style workflow from planning through implementation and closure.

EDUCATION

Anurag University, Hyderabad, India

2022 – 2026

B.Tech in Information Technology

CGPA: 7.82/10

SR Junior College, Hyderabad, India

2020 – 2022

Intermediate

Marks: 932/1000

Sri Chaitanya Techno School, Hyderabad, India

2020

Secondary School

CGPA: 10/10

CERTIFICATIONS

Automation Anywhere – Robotic Process Automation

Cisco – Data Analytics and Python
